Salif Compaore

Enrolled in development unit:
Venegre, DK0622

The short history

The child was born on the 02/06/2001 and has been enrolled in BØRNEfonden's programme since 01/11/2007. He is currently attending Vocational training.

The child is fully vaccinated according to national immunization schedule

The family

Mother: Rasmata (37)

Father: Saidou (47)

Siblings: Sayouba (9), Agueratou and Sabiratou (12)

Update on child and family

Salif is happy to learn breeding; he will soon end up the training. In June, he will benefit from a training in small business management. After that he will join a group to benefit from a credit to start his own business and be self-reliant.

Salif helps his parents with the farm activities and this makes them proud of him. He is interested in new information and communication technologies because they facilitate communication and self-information.

This year, the family has cultivated various crops but because of the bad rainy season, they did not get good harvest. To supplement the income from the field crops, the father grows vegetables for selling.

Community activities recommended to the child and family

Salif has been invited to participate in the entertaining activities organised by the development unit for the blossoming of the community children and young people.

Update on the child's community

"A ground for football playing was set up in my neighbourhood. Young people are glad to meet there each evening to play football"

Community women busy making soap for selling

As a sponsor in BØRNEfonden you are part of a joint effort to enable children and youth to grow up as healthy and resourceful adults. Below are examples of what BØRNEfonden has achieved in the country where your sponsor child is growing up. The examples are related to UN's 17 goals to transform our world: The Sustainable Development Goals.

BØRNEfonden is working to ensure quality education and lifelong learning opportunities in Burkina Faso. During the last year more than 7000 children received school supplies and paid school fees, which made it possible for them to attend school. Teachers were taught about the children's right to a violence-free school and more than 6000 children received a birth certificate. Without the birth certificate, the child cannot take an exam nor graduate from school.

4 QUALITY EDUCATION

Achieve gender equality and empower all women and girls. This is the 5th UN Sustainable Development Goal. BØRNEfonden is continuously working to achieve this goal in Burkina Faso by implementing girls' clubs in schools. To help facilitate and promote girl's clubs, nearly 150 teachers received training. Girls' clubs are important, since they help advocating for the creation of good conditions in families, which allow girls to have time to learn, and the girls are encouraged to stay in school.

5 GENDER EQUALITY

In Burkina Faso, BØRNEfonden has a strong focus on health and hygiene to avoid diseases. A focus that supports the UN's Sustainable Development Goal about ensuring available and clean water and sanitation. To reach this goal - thanks to you as a sponsor - BØRNEfonden has established latrines at schools and homes. In the last year more than 400 latrines at schools and homes were build, which benefitted thousands and thousands of people.

6 CLEAN WATER AND SANITATION

Har BØRNEfonden din e-mail?

Vi vil meget gerne kunne skrive til dig digitalt og effektivt - det kan vi, hvis vi har din e-mail. Opdater din e-mail på mitbornefonden.dk eller ring til Sponsor Relations på telefon **7022 1211**.
